Our commitment to sustainability

At Lango Mining and logistics (LML), we are committed to operating in an environmentally responsible manner. We invest in fuel-efficient vehicles, implement eco-friendly practices, and actively participate in initiatives that promote sustainability in the logistics industry

OUR PROCESS

Mission

- **Domestically:** Secure a significant market share in Tanzania by providing reliable, affordable, and environmentally responsible coal to power generation and key industries.
- **Internationally:** Become a trusted supplier of high-quality, low-ash coal, catering to specific markets seeking efficient and sustainable coal solutions.
- **Commitment to Sustainability:** Implement clean coal technologies, explore carbon capture and storage solutions, and invest in mine reclamation projects.
- **Community Engagement:** Foster positive relationships with communities impacted by our operations, promoting sustainable development and economic prosperity.

Vision

To become a leading, responsible, and sustainable coal mining and supply company, empowering economies while transitioning towards a cleaner energy future.

GOOD GOVERNANCE

We are committed to implementing business strategies based on continuously improving the operating efficiency of our assets. It is paramount to provide a safe, healthy work place for employees by demonstrating our commitment to sustainable development through ethical business practices, while caring about the environment and social responsibility.

We strive to become an employer of choice while promoting an open and empowering culture based on the merits of the individual.

COMPANY VALUES

- **Integrity:** Upholding honesty, transparency, and ethical conduct in all our business dealings.
- **Reliability:** Delivering on our promises and ensuring consistent, dependable service to our clients.
- **Safety:** Prioritizing the health and well-being of our employees, communities, and the environment in all operations.
- **Efficiency:** Optimizing logistics processes to minimize costs, delays, and environmental impact.
- **Innovation:** Continuously seeking new technologies and solutions to improve efficiency and sustainability.
- **Collaboration:** Building strong partnerships with clients, suppliers, and stakeholders.
